

# PHS-S<sup>®</sup> robot static

Este un robot de dezinfectie cu UV, ce foloseste o tehnologie unica de cartografiere a camerei, furnizeaza o doza germicida rapida si eficienta de energie UVC cu unda continua, care ucide germeni si agenti patogeni cand si unde este necesar. Este un dispozitiv inteligent ce elimina complet ineficienta curatarii regulate.

Inaltime	1300 mm
Latime	400 mm
Lungime	400 mm
Greutate totala	75 kg
Putere	AC 220 V, 50 Hz, 150 W max.
Dimensiune lampi	diametru 15 mm, lungime 843 mm
Putere lampi	41 W fiecare
Emisie UV la 254 nm	150 $\mu$ W/cm <sup>2</sup> - 16 W
